# About me

Hello,  
my Name is Luise, I am a 20 year old UGC creator and student who lives in Stuttgart, Germany.  
I chose to study nutritional science because I am very passionate about health and how to achieve it the natural way.

On the other hand, I love everything beauty, fashion and self-care related and enjoy trying out new things in that niche everyday.

I understand the importance of standing out as a brand and I am passionate about helping out your company by presenting your product the best way possible and creating convincing UGC content for you .
