CREATOR PORTFOLIO

2023

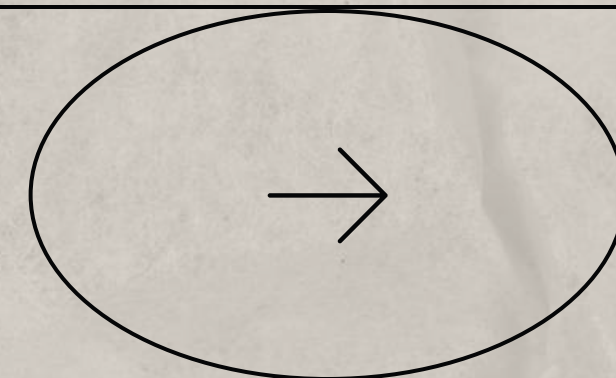

About me

I'm Mina, a 23 year old travel influencer, content creator and photographer from Vienna - Glad to have you here!

My creative journey commenced when I was 15, during a particularly challenging period. In the midst of numerous adversities that caused me to lose my sense of direction at such a young age, I sought solace in crafting and refining distinctive images for Instagram. Regrettably, I gradually relinquished this hobby when I commenced my role as a nurse and embarked on my medical studies.

However, after dedicating a year to the study of medicine, I rediscovered the source of my true happiness: Content Creation. With this realization, I launched my own online business in Content Creation as a travel influencer. This decision has undoubtedly proven to be the most rewarding choice of my life.

Introduction

My passion for capturing the best moments in a unique way while traveling is what motivated me to embark on my journey as a content creator and photographer. Ever since my teenage years, the joy of astonishing people through pictures and videos has held a special place in my heart. This led me to transform my passion into a profession, kickstarting my personal journey as a travel influencer on Instagram. In just a matter of months, I've received an abundance of positive feedback that has further solidified my confidence in my craft.
