

What is UGC?

User-generated content (also known as UGC or consumer-generated content) is original, brand-specific content created by customers and published on social media or other channels. UGC comes in many forms, including images, videos, reviews, a testimonial, or even a podcast.

KEISHA BONSU
UGC CREATOR

About me

Hi Brand,

nice to meet you. My name is Keisha

I'm a mother, freelancer model and i love to be creative with animations, i love to cook and to dance.

Content creation became a passion of mine.
