Professional Experience

Data Trust

Election Data Analyst

Arlington, VA

March 2022 - July 2023

- Created new stored procedures and templates inside Microsoft SQL Server for appending redistricted 2022 congressional lines obtained by the GIS department onto past election results.
- Appended new designations for more than 146 2022 target congressional districts across 35 states onto precinct results in the database going back to 2012 before the 2022 general election.

Election Data Coordinator

March 2021 - March 2022

- Built and maintained a nationwide election results database containing results from every statewide general election from 2012 to current, primarily utilizing Microsoft SQL Server and Microsoft Excel.
- Fulfilled requests from outside groups and company imbeds for election data to match specific formatting requirements.

Nevada Republican Party

Deputy Data Director

Las Vegas, Nevada

August 2020 - December 2020

- Fulfilled daily requests for new voter universes using Microsoft SQL Server and GOP Data Center and assisted end users in the utilization of these lists using the Advantage and RedDialer applications.
- Collaborated with the State Data Director to report daily to senior staff on all work being done in the field, primarily using Microsoft Excel, Google Sheets and Microsoft SQL Server.

Idaho Republican Party

Political Director

Boise, Idaho

January 2019 - August 2020

- Provided robust support, including data support through GOP Data Center, to statewide candidates, local candidates and all 44 GOP county committees.
- Worked with the Executive Director to plan and implement 2 biannual IDGOP State Central Committee Meetings, as well as the 2020 IDGOP State Convention.

Janice McGeachin for Idaho Lieutenant Governor

Regional Field Director

Idaho Falls, Idaho

September 2018 - November 2018

- Coordinated all campaign groundwork in Southeast Idaho, working directly with the Candidate to gain maximum name recognition and brand value among potential voters.
